Nakeba,

With your permission, I'll send the following documents to directors with this email (unless you want it to come from you). Please make sure that date/time for the webinar will work for you.

Would you also please take a look at the GNETS Request for Consultation Form? We did not create this as a committee but it is written in the flow chart and I think we should include this form. It is very basic so if you have something you want me to add, just let me know.

Here's what I'll send:

"Good morning Directors,

The Consideration for GNETS Services Committee has developed the attached forms for your review and feedback. A webinar to train staff on use of these documents will be scheduled for **Tuesday, October 17, 2017 at 1 p.m.** Please send me your feedback and questions by 10/13/17 so that we can best address them in the webinar. Please do not share or reproduce any of these documents as they are not presently finalized. We will record the webinar in case you cannot attend."

Pat

GNETS Consideration for Services Flow Chart

Georgia Network for Educational and Therapeutic Support

A student currently being served in SPED has behavior problems at their school and it is believed GNETS may be an option. (GNETS services are only for students served in SPED). School personnel contacts Special Education Director or designee with concerns (outlining frequency, duration and intensity of behavior problems). A check list of "Guiding Questions" is completed to determine whether more work is needed at the school level or to proceed with GNETS involvement.

GNETS Consultation

Services that are considered GNETS Consultation may include a request for FBA coaching, classroom observation and written feedback, or records review with feedback (complete the "Request for GNETS Consultation" form).

FBA Coaching

Assists with identifying target behaviors & setting up data collection; Assists with review of data after it is collected by school personnel; Assists with data analysis; Assists with writing a draft BIP

Direct Consultation

GNETS staff observes student at school and looks at records; A written report with recommendations is provided to Sped Dir, Principal, and/or teacher; A verbal conference is held, if requested.

Indirect Consultation

GNETS staff looks at records (psychological, eligibility, BIP, IEP) & gives ideas verbally.

GNETS Consideration for Services

According to SBOE **160-4-7-.15**, if the IEP team recommends GNETS services, the following documents must exist in the student's records:

- ✓ Current IEP
- ✓ FBA/BIP administered within the past year
- ✓ Comprehensive reevaluation within last 3 years

IEP meeting will be held inviting GNETS Director or Designee. It is best practices to include the following documents to assist with immediate service delivery.

- ✓ Completed Guiding Questions Checklist
- ✓ School History
- ✓ GNETS consultation documents

Continuum of GNETS Service Delivery and Environments

The IEP team must determine that GNETS services are necessary for students to receive FAPE. Removal from the general education setting will occur only when the nature or severity of students' social, emotional and/or behavioral challenges are such that education in a general education setting with the use of supplementary services and intensive individualized interventions cannot be achieved.

- The GNETS continuum of services by environment may be found on page 3-4 of the GNETS State Board Rule 160-4-7-.15.
- **Move-Ins / Transfers:** For students who move in from GNETS or similar program in another state or who are released from a long-term hospitalization or residential treatment should have an IEP meeting to amend the IEP if necessary.

Georgia Network for Educational and Therapeutic Supports

Guiding Questions for Consideration of GNETS Services

1. Is the student currently served in Special Education?

Is the student currently being served in special education?

YES NO

If the answer is "NO" then GNETS is not an appropriate consideration at this time. Staff may want to consider convening the RTI or SST team to address the next steps for this student.

2. Does this student have a Behavior Intervention Plan (BIP) based upon an appropriate Functional Behavior Assessment (FBA) completed within the past year?

- | | | |
|---|-----|----|
| • Has an FBA been completed on this student within the past year? | YES | NO |
| • Was information from the FBA used to write the BIP? | YES | NO |
| • Does the BIP appropriately address the current target behaviors of concern? | YES | NO |
| • Is the current BIP being implemented with fidelity across all settings in the school? | YES | NO |
| • Is there data to support BIP implementation as well as its impact on the target behavior? | YES | NO |

If the answer to any of these questions is "NO" or "uncertain," then the BIP should be revised (or implemented appropriately). An FBA or new FBA may also need to be considered and completed (if deemed necessary). Once the BIP is revised or determined that it needs to be implemented as written, then data on effectiveness and implementation fidelity should be kept and a meeting date should be rescheduled to review outcomes.

3. Have any Evidenced Based Interventions been implemented with this student?

- | | | |
|--|-----|----|
| • Have Evidence-Based Interventions (EBI) been implemented with fidelity with this student? | YES | NO |
| • Has data been kept on the EBI's impact with this student? | YES | NO |
| • Does the data clearly show that the EBI is NOT positively impacting the student's behavior? | YES | NO |
| • Have the interventions been implemented for a significant length of time to demonstrate their effectiveness or lack thereof? | YES | NO |

If the answer to any of these questions is "no" or "uncertain," then the team should determine an appropriate EBI to implement with this student. They should review the steps involved in the intervention and work to ensure that all members of the student's team involved in implementing the intervention know how to implement with fidelity. A data collection procedure and method for ongoing fidelity checks should be put in place. A schedule regarding the length of time for the EBI to be implemented should be set and the team should meet to review data related to the effectiveness of the intervention at the end of that time.

4. What is/are this student's current placement and/or circumstances?

- | | | |
|--|-----|----|
| • Have all options on the special education continuum been considered and/or tried for this student? (If the answer to this question is "no" then the special education committee may want to convene to consider other placement options, segment changes, delivery models, etc. to insure the student is being served least restrictively. | YES | NO |
| • Is the most current psychological evaluation still relevant? | YES | NO |
| • Has a comprehensive evaluation been completed within the past 3 years? | YES | NO |
| • Some additional factors that might need to be discussed/explored: | | |
| ○ Has the student been explicitly taught the expectations or skill steps? (We should not assume that a student has the knowledge or skills to implement appropriate behaviors - we have to teach them first). | YES | NO |

Guiding Questions for Consideration of GNETS Services

Page 2.

- Has staff tried other preventative measures such as moving the child's desk in the classroom (nearer or away from the teacher or others, the door, etc.), adjusting his/her schedule, or making contact with the parent, etc? YES NO
- Are there medication issues for this child? (ie. Is he/she supposed to be taking medication but is not or are there concerns with consistency of it being administered? Are their concerns about dosages, etc? (If there are concerns in this area, school staff may want to consider having the school nurse involved to complete a behavior checklist, contact the parent, or contact the doctor's office). YES NO
- Are there skill deficits in academics that might lead to avoidance behaviors? YES NO
- If there are known skill deficits, has remediation been provided in this area for the student? YES NO
- Does the student receive a higher ratio of positive versus negative feedback from his/her teachers on a consistent basis? YES NO
- Are there changes or concerns in the home setting or has the student experienced any recent losses or trauma in their life? YES NO

Once all of these questions have been answered, the team needs to determine whether or not there are some areas that need to be addressed prior to moving forward with the most restrictive placement of GNETS. An action plan needs to be developed in regards to the other considerations that might need to be addressed or other placement options within the school may need to be attempted.

5. Is there documentation that indicates evidence of

- Annual IEP Reviews? YES NO
- Progress monitoring data aligned with IEP goals? YES NO
- Documentation indicating prior services were delivered in a less restrictive environment and the student's inability to receive FAPE in that environment? YES NO
- *All data should be clearly documented in the students Present Level related to all of the questions and answers contained in this document.*
- *IEP goals should be developed and/or revised to include the **behaviors** that necessitate placement in the GNETS Program and the data that supports the placement decision as well as the criteria that will be considered to insure that the student is served in the least restrictive educational placement.*
